(Name of college or university)

Form 20T can be used for certification of anticipated completion of a curriculum specifically registered by the New York State Education Department as qualifying for admission to the ASBOG Fundamentals of Geology licensing examination. Programs that meet this criteria are baccalaureate programs in "Geologic Sciences" which have been evaluated and approved as licensure qualifying by the New York State Education Department. In accordance with the Regulations of the Commissioner of Education, students who have completed three years and are within twenty (20) credits of graduation in a program in "Geologic Sciences" qualified by the New York State Education Department are eligible to sit for the Fundamentals of Geology licensing examination.

In accordance with Education Law, Article 145, Certificates for "Intern Geologist" will be issued to students upon successful completion of the ASBOG Fundamentals of Geology (FG) licensing examination and receipt of Form 20F verifying the student has successfully completed the licensure-qualifying program available at http://www.op.nysed.gov/prof/geo/geoforms.htm.
