1. You may apply for a limited permit to practice medical physics in New York State if you have not yet taken the licensure examination or met experience requirements, or are a student enrolled in an approved graduate or post-graduate medical physics program. A limited permit authorizes you to practice as a medical physicist under the supervision of a currently registered, New York State licensed medical physicist and only in the supervisor’s specialty area. When applying for a limited permit, it is the applicant’s responsibility to ensure that the prospective supervisor fully completes the Certification of Supervision, Section II.

2. Complete Section I in ink and forward the form to your supervisor. Ask your supervisor to complete Section II.

3. Submit this application with a check or money order for the required fee of $60 to the address at the end of this form. Please note: A separate application (Form 5) is needed for each specialty. The permit application cannot be approved until all required documents have been received and approved. The applicant may not begin practice until the limited permit is issued.

4. If you change employment, supervisor or supervised setting after a permit is issued, you must obtain a new permit by completing a new Form 5 with your prospective supervisor, and returning it to the Office of the Professions. A fee is not required for a new permit issued as a result of a change in employment, supervisor or supervised setting.
