THE LICENSED CLINICAL SOCIAL WORKER
PSYCHOTHERAPY “R” PRIVILEGE

INTRODUCTION

This publication contains information and application forms for the psychotherapy privilege available to Licensed Clinical Social Workers (LCSWs) licensed in New York State. This information is based on applicable law and regulation and Department administrative policy and reflects the many inquiries received by the Office of the Professions regarding this credential. The format is designed to provide convenient and practical answers to the typical questions posed by applicants, their supervisors, employers, and consumers of social work psychotherapy services.

New York State Insurance Law authorizes a privilege to the LCSW license. This privilege requires the LCSW license and three years of supervised experience in psychotherapy obtained after receiving the LCSW. A separate application and fee are required for this privilege.

DEFINITION OF TERMS

Licensed Clinical Social Worker: The practice of clinical social work encompasses the scope of practice of licensed master social work and, in addition, includes the diagnosis of mental, emotional, behavioral, addictive and developmental disorders and disabilities and of the psychosocial aspects of illness, injury, disability and impairment undertaken within a psychosocial framework; administration and interpretation of tests and measures of psychosocial functioning; development and implementation of appropriate assessment-based treatment plans; and the provision of crisis oriented psychotherapy and brief, short-term and long-term psychotherapy and psychotherapeutic treatment to individuals, couples, families and groups, habilitation, psychoanalysis and behavior therapy; all undertaken for the purpose of preventing, assessing, treating, ameliorating and resolving psychosocial dysfunction with the goal of maintaining and enhancing the mental, emotional, behavioral and social functioning and well-being of individuals, couples, families, small groups, organizations, communities and society.

Diagnosis: Diagnosis in the context of licensed clinical social work practice is the process of distinguishing, beyond general social work assessment, between similar mental, emotional, behavioral, developmental and addictive disorders, impairments and disabilities within a psychosocial framework on the basis of their similar and unique characteristics consistent with accepted classification systems.

Psychotherapy: Psychotherapy in the context of licensed clinical social work practice is the use of verbal methods in interpersonal relationships with the intent of assisting a person or persons to modify attitudes and behavior which are intellectually, socially, or emotionally maladaptive.

Assessment-based treatment plans: Development of assessment-based treatment plans in the context of licensed clinical social work practice refers to the development of an integrated plan of prioritized interventions, that is based on the diagnosis and psychosocial assessment of the client, to address mental, emotional, behavioral, developmental and addictive disorders, impairments and disabilities, reactions to illnesses, injuries, disabilities and impairments, and social problems.

LCSW Reimbursement: An LCSW is recognized in New York State as a reimbursable psychotherapist. The insurance law has been called "make available legislation," because an insurance company is required to provide reimbursement for social work services only at the request of the insured group (which is usually represented by a labor union). The LCSW’s clients may receive reimbursement for mental health services under the regulation and limitations of the insurance law. Information on LCSWs is available on our Web site at www.op.nysed.gov/opsearch.htm listed by the name of the Licensed Clinical Social Worker.

Psychotherapy "R" Privilege: An LCSW who fulfills the requirements of the insurance law for supervised experience providing psychotherapy, is recognized in New York State as a reimbursable psychotherapist. The “R” privilege requires insurance carriers to provide reimbursement for psychotherapy services.
services whenever a health insurance contract includes reimbursement of qualified psychologists and psychiatrists. The "R" statute has been called "mandatory legislation." This designation is added to one's license number (e.g., LCSW R123456) and the practitioner's clients must receive reimbursement for mental health services under the regulation and limitations of the insurance law. Information on LCSWs who have the "R" privilege is available on our Web site at www.op.nysed.gov/opsearches.htm, listed by name of Licensed Clinical Social Worker.

EXCLUSIONS TO COVERAGE AUTHORIZED BY THE PSYCHOTHERAPY PRIVILEGE

Licensed Clinical Social Workers in New York State who have received the psychotherapy privilege are recognized providers of psychotherapy services under New York State Insurance Law, Sections 3221 and 4303, EXCEPT under the following conditions:

1. The benefits are provided under an individual contract with an insurance company, not a group health plan.
2. The insurance plan is part of a managed care organization (HMO, IPA, PPO, etc.), which may not recognize social workers.
3. The employer is self-insured, which means the employer has funded the benefit program rather than hiring an insurance company to take that financial risk. (Note: Some employers hire the insurance company only to administer the fund and are still regarded as self-insured.)
4. The contract between the employer and the insurance company was delivered out-of-state. Regardless of where the insurance company is located, when it negotiates a contract to cover the employees of any employer whose home office is not in New York State, the contract is delivered to that employer at the out-of-state address. Even if some employees work within New York State at a branch office or company plant, the Insurance Law of New York State has no jurisdiction.

All inquiries regarding the above conditions should be verified with the insurance company or employer. Further clarification cannot be provided by the State Board for Social Work. Complaints should be directed to the Consumer Services Bureau of the New York State Insurance Department at 1-800-342-3736.

TDD/TTY 518-473-1426

For name changes a fax or e-mail is not acceptable. You must provide written notification of any name change with an original notarized signature in your new name to:

New York State Education Department, Office of the Professions
Division of Professional Licensing Services
Records and Archives Unit
89 Washington Avenue
Albany, NY 12234-1000

NOTE: Once you are licensed, Education Law requires that you notify the Department of any change in your mailing address or name within 30 days of that change. Failure to do so may be considered professional misconduct. It may also delay renewal and result in late fees to renew the
registration of a professional license. You may use the Form AD/NAME located in the back of this packet or print a copy from our Web site at www.op.nysed.gov/anchange.pdf to notify the Department of a change in your address or name.

PROFESSIONAL CONDUCT

All licensed practitioners must adhere to rules of professional conduct. The Education Law includes definitions of professional misconduct, and the Board of Regents has adopted Rules defining unprofessional conduct for all professions. Every licensee is also governed by a set of Laws, Rules, and Regulations for the practice of the profession.

Title 8 of the New York State Education Law is available on our Web site at www.op.nysed.gov/title8.htm

Part 29 of the Rules of the Board of Regents is available on our Web site at www.op.nysed.gov/part29.htm

Copies of the relevant sections of the New York State Education Law, Rules of the Board of Regents, and the Commissioner's Regulations are available upon request from opforms@mail.nysed.gov or 518-474-3817 ext. 320.

You received information on professional practice when you received your license and first registration.

RECORDS RETENTION AND DISPOSITION STATEMENT

Applications are considered active while an applicant is providing documentation to meet the requirements for a professional license or post-licensure certificate (i.e., examination grades, educational credentials and professional work experience).

If you withdraw your application or your application is inactive for five (5) consecutive years, any documents submitted as part of your application will be destroyed in accordance with the Records Retention and Disposition schedule on file with the State Archives and Records Administration.

DISCLOSURE OF SOCIAL SECURITY NUMBERS

In accordance with Federal and State laws, the New York State Education Department requires that all applicants for professional licensure provide their Federal Social Security Number (SSN). Individuals without a SSN will be assigned a random, computer-generated nine-digit identifier. The agency will use the SSN or assigned numeric identifier to maintain accurate license and registration records. This information may be shared with other State or Federal agencies, consistent with applicable laws and departmental policy, but will otherwise be kept confidential.

The specific statutory authority for requiring Federal Social Security Numbers is in the following: Federal Law-Privacy Act of 1974 (Section 7 of P.L., 93-579); Welfare Reform Act of 1996 (42 USCA 666 (a)); New York State Law-Title 8, Section 6507, paragraph 4(e) Education Law; Section 5 of the Tax Law.

Please Note: Payment submitted from outside the United States should be made by check or draft on a United States bank and in United States currency; payments submitted in any other form will not be accepted and will be returned.

REQUIREMENTS FOR THE PRIVILEGE

To qualify for the licensed clinical social worker psychotherapy "R" privilege, you must be a licensed clinical social worker (LCSW) in New York State.

The experience requirements for the privilege were amended to require that such experience be obtained after licensure as an LCSW. However, an individual who started the experience for the privilege prior to January 1, 2011 may submit experience that was completed prior to licensure. That experience must be after the experience that qualified you for licensure as an LCSW, in the determination of the State Board, and meet all other requirements for acceptable, supervised experience.

You must have 36 months of full-time (or the part-time equivalent) supervised experience in psychotherapy after licensure as an LCSW, under the supervision of an LCSW with the “R” privilege, licensed psychologist or licensed physician who is competent in psychology. The qualifications for the supervisor are listed in Appendix A.

Before you start the experience, you must submit an Application for Licensed Clinical Social Worker Psychotherapy “R” Privilege (Form 1SWR) along with the $100 application fee to the Office of the Professions at the address at the end of the form.
You and your supervisor must submit documentation using Form 4SWPR and the Psychotherapy Log that verifies the experience which meets the following conditions:

1. Only the practice of psychotherapy, as defined in the Education Law, is acceptable for the privilege.
2. The post-LCSW experience must be at least 36 subsequent calendar months of psychotherapy experience. You may not submit less than 400 client contact hours of psychotherapy in any 12-month period.
3. A total of 36 months and 2,400 hours of direct client contact after you are licensed as an LCSW is required. Every subsequent month and client contact hour may be counted.
4. The 36 months may not be shortened. Part-time experience will increase the time to complete the required hours.
5. A client contact hour is at least 45 minutes of psychotherapy with individuals, families or groups; sessions may be combined.
6. The supervised experience must be in a setting defined as acceptable to the Department in law and regulation.
7. All experience must be supervised by an LCSW with the “R” privilege, licensed psychologist, or physician who is competent in psychiatry as defined below;
8. Supervision for the licensed clinical social worker psychotherapy "R" privilege application must consist of individual or group consultation at least two hours per month which may be provided in-person, or by telephone, video conference or internet, or enrollment in a program in psychotherapy in an institution of higher education or a psychotherapy institute chartered by the Board of Regents.

Note: Effective June 29, 2010, peer supervision is not allowed.

PLANNING FOR EXPERIENCE

Before starting the experience for the “R” privilege, you must submit for review and approval by the State Board for Social Work, a Plan for Supervised Experience (Form 6) that will meet the requirements of this paragraph. The plan for supervision shall specify:

- individual or group consultation of no less than two hours per month; or
- enrollment in a program authorized to provide psychotherapy offered by an institution of higher education or by a psychotherapy institute chartered by the Board of Regents.

The individual or group supervision must be provided by a Licensed Clinical Social Worker with the “R” privilege, a licensed psychologist or a licensed physician who has a qualification in psychiatry, in the determination of the State Board. The experience must be completed in an authorized setting, as defined in the Education Law and Part 74.5 of the Commissioners’ Regulations. You can access more information about qualified supervisors in the Appendix A.

A Plan for Supervised Experience (Form 6) must be submitted by the supervisor for review and approval by the State Board. Your Form 6 will not be reviewed unless you have already submitted an Application for Licensed Clinical Social Worker Psychotherapy “R” Privilege (Form 1SWPR) and $100 fee.

REQUIREMENTS FOR SUPERVISORS: PSYCHIATRISTS, PSYCHOLOGISTS AND SOCIAL WORKERS

Supervision of applicants for the licensed clinical social worker psychotherapy "R" privilege must be provided by either a:

1. Physician who, while supervising the applicant, was licensed by the state in which supervision occurred and had appropriate training and experience in psychiatry as determined by the Department, such as board certification or a psychiatric residency; or
2. Psychologist who, while supervising the applicant, was licensed as a psychologist in the state where supervision occurred and was qualified in psychotherapy as determined by the Department or is a graduate of an American Psychological Association approved program in psychology or an equivalent program as determined by the Department; or
3. A New York State LCSW with the “R” privilege or the equivalent who was licensed and registered while supervising the applicant, as determined by the Department.
The Department will review the qualifications of a prospective supervisor who submits a completed Approval of Qualifications to Supervise Psychotherapy (Form 4Q) with the Application for Licensed Clinical Social Worker Psychotherapy “R” Privilege (Form 1SWPR). Approval of the supervisor’s qualifications does not guarantee approval of the applicant’s experience which must be completed in accordance with Part 74.5 of the Commissioner’s Regulations.

INFORMED CONSENT

It is the responsibility of the licensed clinical social worker (LCSW) to inform the client that the LCSW is supervised in the practice of psychotherapy. The client should understand that the LCSW is sharing with a qualified supervisor information about the diagnosis and treatment of each client and that the supervisor provides the LCSW with oversight and guidance in diagnosing and treating clients. The client should be provided with contact information for the supervisor to share any concerns or questions about the applicant’s practice.

If an LCSW is employed in an agency or other setting and on-site supervision is not available, it is the responsibility of the LCSW, employer and supervisor to make arrangements for supervision. In addition to informed consent for the client, the arrangements should include access by the supervisor to client information and records to ensure appropriate supervision of the LCSW seeking the psychotherapy privilege. The supervisor must be employed by the agency, not the LCSW.

SETTING

All experience that is completed in New York State must be in a setting that is legally authorized to provide psychotherapy and clinical social work services. An acceptable setting is defined as:

- A practice owned or operated by the applicant;
- A sole proprietorship owned by a licensee who provides services that are within the scope of his or her profession and services that are within the scope of psychotherapy;
- A professional partnership owned by licensees who provide services that include psychotherapy;
- A professional service corporation, registered limited liability partnership or professional service limited liability corporation that is owned by a licensed clinical social worker with the “R” privilege, licensed psychologist or licensed physician who is competent in psychiatry;
- A hospital or clinic authorized under Article 28 of the Public Health Law and authorized to provide health services, including clinical social work;
- A program or facility authorized under the Mental Hygiene law to provide appropriate health services, including clinical social work;
- A program or facility authorized under federal law, such as the Veterans’ Administration, to provide health services including clinical social work;
- A public elementary, middle or high school authorized by the Education Department to provide school social work services as defined in Part 80-2.3 of the Commissioner’s Regulations, including clinical social work;
- An entity defined as exempt from the licensing requirements under New York Law*.

In New York State, a general business corporation or not-for-profit corporation may not provide professional services or employ licensed professionals unless authorized under law. The certificate of incorporation should clarify the purpose of the entity and whether licensed professionals may be employed to provide services that are restricted under Title VIII of the Education Law.

It is your responsibility to practice only under a qualified supervisor and in an authorized setting. You should review the supervisor qualifications and acceptable experience with an employer before you accept a position practicing clinical social work.

*Note: Section 9 of chapter 420 of the laws of 2002, as subsequently amended provides: “Nothing in this act shall prohibit or limit the activities or services on the part of any person in the employ of a program or service operated, regulated, funded, or approved by the department of mental hygiene, the office of children and family services, department of correctional services, state of fice for the aging, department of health, or a local governmental unit as that term is defined in article 41 of the mental hygiene law or a
social services district as defined under section 61 of the social services law, provided, however, this section shall not authorize the use of any title authorized pursuant to article 154 of the education law, except as otherwise provided by such articles, except that this section shall be deemed repealed on July 1, 2013.”

Appendix A
Requirements for Supervised Experience
Licensed Clinical Social Worker Psychotherapy “R” Privilege

- An applicant for the psychotherapy privilege must be licensed and registered as a Licensed Clinical Social Worker (LCSW) in New York State and must document the completion of 36 months of supervised experience in psychotherapy as defined in section 74.5(b) of the Commissioner’s Regulations, acceptable to the Department. The supervised experience must be after the individual was licensed as an LCSW.

- A total of 36 months and 2,400 hours of direct client contact in psychotherapy is required. The LCSW must complete a minimum of 400 client contact hours in any 12-month period. Part-time experience will increase the time to complete the required hours.

- A client contact hour is defined as at least 45 minutes of psychotherapy with individuals, families or groups. An applicant may combine sessions of less than 45 minutes to calculate the client hours if clinically appropriate, as determined by the supervisor. Concrete social work services, including collateral contacts, record-keeping, case management, and other activities are not considered the practice of psychotherapy and may not be considered in the calculation of client contact hours.

Qualified Supervisor
The experience must be supervised by an individual who is a(n):

- LCSW with the “R” privilege in New York State or the equivalent as determined by the Department, equivalent meaning the supervisor has his or her own 3 years of supervised, post license experience; or

- Psychologist who, at the time of supervision of the applicant, was licensed as a psychologist in the state where supervision occurred, was qualified in psychotherapy as determined by the Department based upon the Department’s review of the psychologist’s education and training, including but not limited to education and training in psychotherapy obtained through completion of a program in psychotherapy registered pursuant to Part 52 of the Regulations of the Commissioner of Education or a program in psychology accredited by the American Psychological Association; or

- Physician who, at the time of supervision of the applicant, was a diplomate in psychiatry of the American Board of Psychiatry and Neurology, Inc. or had the equivalent training and experience as determined by the Department.

A supervisor may not have a familial relationship with the applicant, as such dual relationships may constitute a charge of unprofessional conduct under the Education Law and Regents Rules.

The Department will review the qualifications of a prospective supervisor prior to the experience as part of the plan review.
Approval of a supervisor does not guarantee approval of the applicant’s experience which must be completed in accordance with Part 74.5 of the Commissioner’s Regulations.

Supervision Sessions
The supervision must meet the following requirements:

- individual or group consultation of no less than two hours per month; or

- enrollment in a program authorized to provide psychotherapy offered by an institution of higher education or by a psychotherapy institute chartered by the Board of Regents.

Setting for the Experience
All experience that is completed in New York State must be in a setting that is legally authorized to provide psychotherapy and clinical social work services. An acceptable setting is defined as:

- A practice owned or operated by the applicant;

- A sole proprietorship owned by a licensee who provides services that are within the scope of his or her profession and services that are within the scope of psychotherapy;

- A professional partnership owned by licensees who provide services that include psychotherapy;

- A professional service corporation, registered limited liability partnership or professional service limited liability corporation that is owned by a licensed clinical social worker with the “R” privilege, licensed psychologist or licensed physician who is competent in psychiatry;
• A hospital or clinic authorized under Article 28 of the Public Health Law and authorized to provide health services, including clinical social work;

• A program or facility authorized under the Mental Hygiene law to provide appropriate health services, including clinical social work;

• A program or facility authorized under federal law, such as the Veterans’ Administration, to provide health services including clinical social work;

• A public elementary, middle or high school authorized by the Education Department to provide school social work services as defined in Part 80-2.3 of the Commissioner’s Regulations, including clinical social work;

• An entity defined as exempt from the licensing requirements under New York Law*.

In New York State, a general business corporation or not-for-profit corporation may not provide professional services or employ licensed professionals unless authorized under law. The certificate of incorporation should clarify the purpose of the entity and whether licensed professionals may be employed to provide services that are restricted under Title VIII of the Education Law.

It is your responsibility to practice only under a qualified supervisor and in an authorized setting. You should review the supervisor qualifications and acceptable experience with an employer before you accept a position practicing clinical social work.

*Note: Section 9 of chapter 420 of the laws of 2002, as subsequently amended provides: “Nothing in this act shall prohibit or limit the activities or services on the part of any person in the employ of a program or service operated, regulated, funded, or approved by the department of mental hygiene, the office of children and family services, department of correctional services, state office for the aging, department of health, or a local governmental unit as that term is defined in article 41 of the mental hygiene law or a social services district as defined under section 61 of the social services law, provided, however, this section shall not authorize the use of any title authorized pursuant to article 154 of the education law, except as otherwise provided by such articles, except that this section shall be deemed repealed on July 1, 2013.”

See Part 74.5 of the Commissioner’s Regulations for more detail.

The Form 6 should be submitted prior to starting the practice of clinical social work to meet the experience requirements for licensure in New York or when your employment changes. You and your prospective employer/supervisor should complete the form and submit it to the State Board for review of the setting and the supervisor.

In order to meet the experience requirement for licensure, you must complete at least 2,000 client contact hours in the practice of diagnosis, psychotherapy and assessment-based treatment planning under a qualified supervisor, in a setting authorized to provide clinical social work services. The supervisor must provide at least 100 in-person hours of individual and/or group supervision. The specific requirements for supervised practice may be found in section 74.6 of the Commissioner's Regulations.

Your prospective supervisor/employer must indicate the type of setting (e.g., hospital, prison, or private practice) where you will be employed. The supervisor must attach a copy of the operating certificate issued by the appropriate government agency (e.g., Department of Health for Article 28 clinic) for the agency, or in the case of a private practice, proprietorship or professional corporation a copy of the certificate of incorporation, or a copy of the waiver issued by the Department to a qualified not-for-profit or educational corporation under section 6503-a of the Education Law, when issued.

The supervisor must indicate the profession in which he or she is licensed in New York and must be registered to practice as an LCSW, licensed psychologist or psychiatrist. The supervisor should attach a copy of his/her registration certificate with Form 6. You may not hire your supervisor; the supervisor must be employed by the same agency that employs you and is responsible for supervision of your practice. If this is the case, the agency must complete the appropriate section of Form 6.

The completed Form 6 should be signed and mailed to:

**State Board for Social Work**
**Office of the Professions, State Education Building**
**89 Washington Avenue, Albany, NY 12234-1000**

The form and attachments will be reviewed and you will receive an acknowledgement, if acceptable, or we will contact you with any questions.

The approval of the Form 6 should not be taken as approval of your experience; the supervisor is responsible for submitting verification of experience on Form 4B. When you have completed at least 2,000 client contact hours of supervised experience or you leave this setting, you and the supervisor should submit Form 4B to the State Board. We will review experience after you have submitted the application for licensure (Form 1) and fee and your clinical education has been approved by the Department. When your clinical education and experience are approved, you will be eligible for the licensing examination. **You may only practice clinical social work under supervision until you are licensed as an LCSW.**
