Proposed Section 29.6(a) Regents Rule, new paragraphs 10-12

Sec. 29 Professional Conduct
Sec. 29.6(a) Special provisions for the profession of veterinary medicine.

10. Failure to clearly identify in the patient record the treating veterinarian and any veterinary technician providing patient care for each patient visit and, in a multi-doctor practice, the veterinarian who is responsible for managing the care of any patient admitted as an in-patient.

11. Failure of the veterinarian who is managing the care of the patient to adequately supervise both licensed and unlicensed personnel in the practice who have been given responsibility to provide patient care within that practice.

12. Failure of a principal in a multi-doctor practice to provide a setting – including appropriate supervision, equipment and human resources, medical record and client communication platforms - under which licensed personnel can provide adequate patient care within that practice.
